

Nedschroef steps into Aviation

Nedschroef Aviation Fasteners, certified as a manufacturer of fasteners for the Aviation Industry.

Germany, Altena, June 13th - Nedschroef Aviation Fasteners GmbH, part of Koninklijke Nedschroef Holding B.V., has started their business activities in January 2014 as a manufacturer of Aviation fasteners.

On the 24th of April Nedschroef Aviation Fasteners GmbH officially achieved a key milestone in Aviation Business Development for 2014 with **passing successfully the EN 9100 audit**. With this certification they are allowed to directly supply fasteners into the Aviation and Aerospace industry on a global level. They are also allowed to source products from internal 9100 audited plants.

In March 2013 first steps were made to go for this big challenge stepping in the Aviation Industry which is different from the Automotive Industry, because of its special material performance sheets, technical process parameters and surface procedures. It is an important milestone in the history of the company and the next step of their long term growth plans.

About Nedschroef:

For over a century, Koninklijke Nedschroef Holding B.V. has developed, manufactured and supplied fasteners and special parts for the automotive industry. In addition, Nedschroef design and produce superior forming machines and tools for the metal forming industry. Nedschroef delivers world-class services and innovative, cost-effective solutions. Their expanding global operations offer everything from product design and development to delivery, installation and service, supported by a vast global partner network. 1,600 people at 24 facilities, including seven centres of competence, in 14 countries worldwide are committed to our Full Service Provision concept.
