

PRODUCT PORTFOLIO

Whichever fastener or other component you need for your end product to come to life, Nedschroef can provide. Whether self manufactured, or sourced from our global supplier network, we are your partner in forming technologies.

PREMIUM FASTENERS

Cold formed fasteners with a thread as primary function.

- Self-aligning screws
- Heat-resistant fasteners
- High-strength fasteners
- Captive washer screws
- Thread-forming screws

COMPLEX INNOFORM PARTS

Cold formed products made with or without secondary machining in which a potential thread has no primary function.

- Knurled bushings
- Clutch sleeves
- Spherical washers
- Retainer sleeves
- Seat hinges
- Gear wheels
- Steering spindles
- Spring retainers

ASSEMBLED PARTS

Products with specific functionality that consist of multiple integrated parts.

- Cage nuts
- Pierce nuts
- Tolerance absorbers
- Decoupling nuts

PRODUCT PORTFOLIO

STAMPED AND BENDED PARTS

Products that are produced through stamping and or bending.

- Threaded anchor plates
- Brackets with pierce or welded nuts
- Washer exhausts
- Plugs

PERFORMANCE PARTS

Products made from high-grade materials for ultra-high performance.

- Driveshaft components
- Safety components
- Suspension systems
- Wheel hubs

C-PARTS

Small, critical products critical to end-products, typically purchased in low volumes.

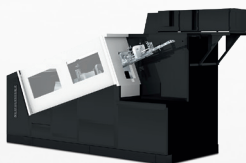

- Retainer clips
- Springs
- Washers
- Hose clamps
- Cable ties
- Labels
- Scrivets
- Emblems

PRECISION PARTS

Turned products with tight tolerances, complex geometry, and short lead times.

- Drilled parts
- Hose parts
- Bushings
- Gaskets
- Cold formed parts made with machining or pressing operations

MACHINERY AND TOOLS

In addition to fasteners and a wide range of complementary parts, we also manufacture next-generation, multi-station, cold and warm forming machines and associated premium tools in-house.
